**IRONMAN4X4 FOAMCELL SUSPENSION**

# IRONMAN 4X4 FOAMCELL PRO SUSPENSION

- ✓ NITROGEN WITH FOAMCELL
- ✓ 45MM TEFLON PISTON
- ✓ 72MM BODY
- ✓ TWINTUBE CONSTRUCTION
- ✓ EXTENDED TRAVEL

IRONMAN4X4 COIL & LEAFSPRINGS

**Ironman4x4 design and produce a range of and Leaf springs to facilitate additional loads and lifts**

(A) Comfort

(B) Performance

(C) Constant Load

(D) Extra-Constant Load

**PART NUMBER SUFFIX S - Standard Height** (eg. TOY063S)

Available for selected applications to provide enhanced performance at original vehicle manufacturers ride height.

**PART NUMBER SUFFIX A - Comfort** (eg. TOY047A)

Suitable for zero to light load applications, higher priority toward comfort with minimal increased ride height.

**PART NUMBER SUFFIX B - Performance** (eg. TOY047B)

Suitable for use in zero to medium load applications, ideal for moderately accessorised vehicles or occasional load.

**PART NUMBER SUFFIX C - Constant Load** (eg. TOY047C)

Suitable for vehicles with permanent heavy accessories, higher priority towards load support, provides more control and firmer suspension.

**PART NUMBER SUFFIX D - Extra Constant Load** (eg. TOY047D)

Suited only to vehicles with permanent heavy accessories combined with heavy additional load.

**PART NUMBER SUFFIX E - Extra Heavy Constant Load** (eg. TOY047E)

Maximum support for extra heavy loads typically commercial or mining use vehicles.

## Torsion Bars

*Higher spring rate to support extra weight from additional vehicle accessories*

**UP-SET FORGED ENDS** - Stronger than machining alone, forging manipulates steel grain for superior strength and durability.

**PREMIUM MICRO-ALLOY STEEL** - Exceeds OEM steel grade for ultra long life and less sag.

**INCREASED BAR DIAMETER** - Higher spring rate better supports added accessories and balances front and rear suspension performance.

**X-RAY EXAMINED** - Each and every Ironman Torsion Bar is X-Ray tested to eliminate risk of breakage due to material flaw.

**DIRECTIONAL PRE-SETTING** - Torsion Bars are rotationally pre-set in their direction of installation to reduce spring settling. Each bar is marked for left or right fitment.

## Steering Damper

*Reduce unwanted vibration and feedback through steering system in rough conditions*

**FOAM CELL TECHNOLOGY** - Micro-Cellular closed cell foam insert allows for the horizontal mounting orientation required by a steering damper.

**35mm TEFLON BANDED PISTON** - Precision shim-stack piston specifically valved by Ironman suspension engineers, banded with Teflon for smooth long life operation.

**54mm TWIN TUBE BODY** - Increased oil volume for improved cooling and endurance, twin tube construction protects internal components from impact damage.

**SUPPLEMENTARY WELDED MOUNTS** - Fusion welded and supplementary welded for maximum strength and reliability.

**SINGLE PIECE BILLET EYE RINGS AND STEMS** - Ultra robust design prevents breakage or bending of mounts.

**VEHICLE SPECIFIC VALVING** - Every part number is specially valved for each vehicle application, this ensures the steering operation is smooth and unhindered by the effects of rough road driving.

## Add a Leaf

*Ironman 4x4 Add-a-Leaf is a simple, cost effective addition to boost your existing leaf springs*

Eliminates suspension sag and supports additional load

Improves comfort and handling

Increases load carrying capability

Increases ride height

## Strut Trim Packers

*For use only with Ironman 4x4 struts, available individually to adjust "side to side" or "front to back" vehicle lean due to uneven load placement.*

**PRECISE RIDE HEIGHT TUNING** - Basic steel collar design fits over Ironman 4x4 struts to adjust spring seat height.

**PRE-CONFIGURED THICKNESSES** - Varied thicknesses allow correct selection according to the amount of adjustment required. Usually provides 1:2 ratio suspension lift on independent suspension vehicles.

## Load Plus Helper Spring

*Load Plus provides a cost effective way to quickly and easily improve the load carrying characteristics of your vehicle.*

- Maximize vehicle payload
- Improve safety and stability
- Reduce tire, brake, and suspension wear
- Reduce sway by up to 40%
- Reduce brake pitch by up to 20%

## Polyurethane Bushes

*Provide precise spring location and enables lubrication to increase suspension flex and comfort*

**INJECTION MOULDED POLYURETHANE** - High density injection moulded polyurethane material ensures precise location and a durable bearing surface for your leaf springs, making them very durable in hot temperatures whilst providing a soft comfortable vehicle ride.

**GREASABLE** - Polyurethane bushes are greasable to aid in longer life and ensure smooth ride and quiet operation.

**SPIRAL BORE AND FLANGES** - To distribute lubricating grease evenly throughout the bushing surface when combined with greasable shackles and pins.

**SPLINES** - Allows the bush to conform to irregularities and grip to the eye surface.

## Caster Correction Bushes

*Available in adjustable or fixed offset designs, used to correct caster angle after raising suspension under 100mm (4")*

**PRE-CONFIGURED CASTER CORRECTION** - Fixed 2 degree offset models suit 50mm (2") lifted suspension.

**ADJUSTABLE CASTER CORRECTION** - Adjustable offset suit a wide range of lift heights up to 100mm (4")

**HIGH DENSITY MATERIALS** - Vehicle specific rubber or polyurethane material.

## Caster Correction Bushes

*Available individually to adjust "side to side" or "front to back" vehicle lean due to uneven load placement*

**INJECTION MOULDED POLYURETHANE** - High density injection moulded polyurethane material ensures precise location and a durable seat with the spring.

**PRE-CONFIGURED THICKNESSES** - Varied thicknesses allow correct selection according to the amount of lean. Provides 1:1 ratio suspension lift on solid axle vehicles.

**SELF LOCATING DESIGN** - Raised profile locating flanges prevent packer from becoming dislodged or falling out.

## Extended Sway Bar Links

*Recalibrates sway bar index after raising suspension.*

**VEHICLE SPECIFIC BOLT ON DESIGN** - Easy fitment, utilises OEM mounting locations.

**ADJUSTABLE LENGTH** - Adjustable extension where possible depending on vehicle model.

**PRACTICAL DESIGN** - Strongest construction up-spec materials to avoid bending and breaking. Rubber bushes and aircraft grade spherical bearings used where possible depending on vehicle model.

## Greaseable Shackles & Pins

*Enables easy re-greasing of polyurethane spring bushes*

**QUAD-OUTLET GREASABLE** - Greasable shackles provide an easy method of re-lubricating polyurethane bushes. Chamfered Quad-Outlet ports distribute grease liberally along the bush surface.

**SERVICEABLE** - All Ironman shackles and pins feature a serviceable bolt together construction.

**ANTI-INVERSION SHACKLE** - On selected models, a third pin is positioned on the shackle to protect the spring in the case of inversion.

## Adjustable Panhard Rods

*Used to correct axle shift after raising suspension. Adjustable as required to re-centralise axle to vehicle*

**COMPETITION SPEC** - 32mm solid rod used throughout.

**FINE THREAD ADJUSTMENT** - M32 x 2mm thread ensures precision adjustment for greater accuracy.

**OEM STYLE RUBBER BUSHES** - Maximum flex and durability. Replaceable OEM compatible bushes.

## Adjustable Trailing Arms

*Used to correct rear axle tilt and location after raising suspension.*

**COMPETITION SPEC** - 32mm solid rod used throughout.

**FINE THREAD ON-VEHICLE ADJUSTMENT** - M32 x 2mm thread ensures precision adjustment for greater accuracy.

**OEM STYLE RUBBER BUSHES** - Maximum flex and durability. Replaceable OEM compatible bushes.

## ProForge Upper Control Arms

*High strength forged alloy control arms to optimise wheel alignment and increase clearance with raised height suspension.*

Optimise Wheel Alignment at Raised Ride Height.

More Clearance for Larger Tyres and Increased Lift.

Relocated Ball Joint Position.

High Strength and Durability.

## Extended Brake Hoses

*Longer brake hose used with suspension lifts over 100mm (4").*

**DOT SAE J1401 STANDARDS APPROVED CONSTRUCTION** - OEM style reinforced rubber hose for safety.

**EXTENDED LENGTH** - Extended length allows for greater suspension travel.

## Airbag Delete Kit

*For vehicles with AHC systems. This bolt on kit requires no welding, cutting, or modifying any OEM parts on your vehicle.*

Adjustable height range up to an inch

Upper rubber coil spring isolator cones

EDP coated steel threaded body

EDP coated drop forged alloy spring seat with set screws
