

The background of the advertisement features a white car, with the front headlight and fender visible on the right side. The left side of the image is dominated by a light blue background with a pattern of raised hexagons, resembling a diamond plate texture. A soft rainbow light effect is visible across the center of the image, passing behind the text.

PAINT PROTECTION

THE PROFESSIONALS' CHOICE

THE PROFESSIONALS' CHOICE

Diamondbrite has been manufactured in the UK since 1992 by Jewelultra Ltd.

Diamondbrite Ceramic is a new ultra-hard generation of Paint Protection that offers unrivalled protection and durability for all new and used vehicles, including Electric Vehicles, Hybrids, Motability and even for Van, Fleet and Business users keeping your vehicle looking as good as the day you bought it.

Vehicles coated with Diamondbrite Ceramic Paint, Fabric and Leather protection come with a guarantee (subject to terms and conditions). It even guarantees against Bird Lime damage – as long as it's washed off as soon as possible.

DIAMONDBRITE PEACE OF MIND*

Once applied professionally by a trained applicator, Diamondbrite comes with a manufacturer backed guarantee. This provides protection for your vehicle paintwork and interior covering:

Paint fading

Deterioration of gloss finish

Fabric interior stains including; water, coffee, soft drinks & milk

*Terms and conditions apply.
See www.diamondbrite.co.uk for details.

guaranteed against
staining

Helps protect your
vehicle's resale value

UV Protection
against fading

Protection
from acid rain

Protection
from salt

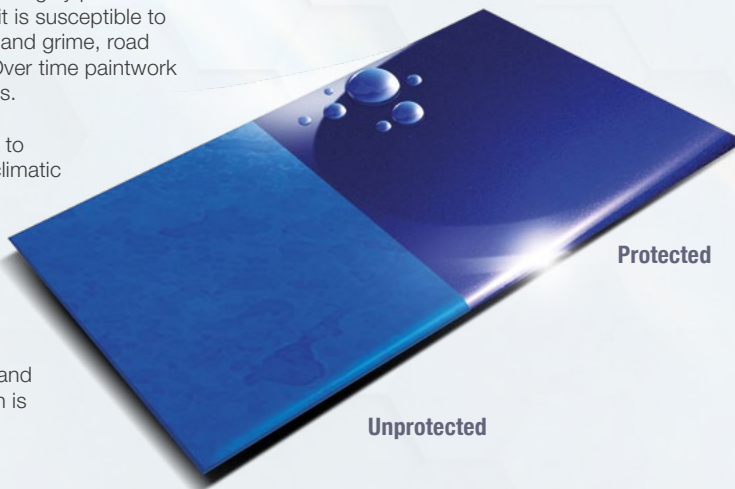

**GUARANTEED
PROTECTION**

PAINT PROTECTION

Modern automotive paint is water-based and highly prone to fading and oxidation. If it is not protected it is susceptible to attack from the sun's UV rays, abrasive dirt and grime, road salt, acid rain, insect marks and bird lime. Over time paintwork deteriorates losing its gloss and smoothness.

Diamondbrite Ceramic has been developed to withstand the harshest environmental and climatic conditions. It adds an invisible smooth high gloss protective coating to the vehicle. It strengthens and increases the hardness of the lacquer, which creates a superb high performance coating that has unrivalled hydrophobic properties. The paint has a visible deeper shine and colour. Combine this with an 'easy to clean' effect and you have protection and performance which is second to none.

THE CERAMIC BARRIER

Once treated with Diamondbrite Ceramic your vehicle paintwork is protected from daily contaminants by a durable barrier, while helping maintain an easy to clean high gloss shine.

Tree sap

Road grime, salt,
traffic film and tar

Temperature
cycles

Bird lime

Increased scratch
resistance

Insect fluid

UV Light

Fabric stains

Acid rain

Resistance to alkalis
up to pH13

Diamondbrite Ceramic is based on a Reactive Amino Functional Compound which cross links with the paint surface creating a tough impenetrable barrier.

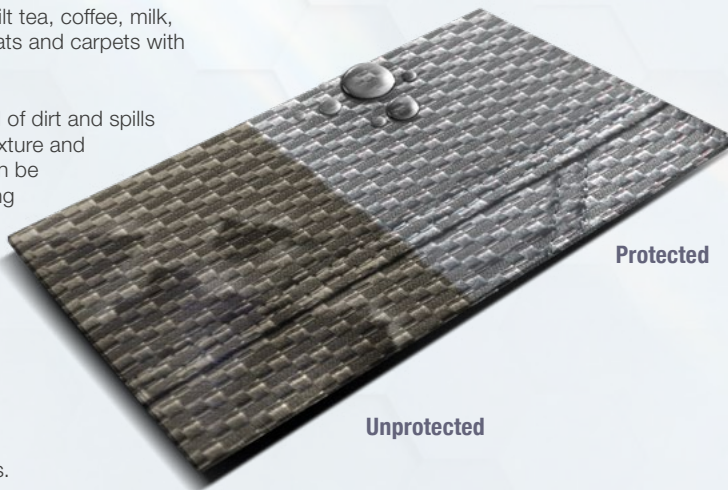

INTERIOR PROTECTION

And when a car's interior has been treated with Diamondbrite Ceramic, there's no need to worry about spilt tea, coffee, milk, chocolate, or mud. Technicians coat the seats and carpets with a protective coating.

These advanced products ease the removal of dirt and spills and prevent staining while preserving the texture and appearance of the interior. Dirt and spills can be vacuumed or wiped off with a gentle cleaning solution such as our award winning high foaming Diamondbrite Upholstery Cleaner.

BEST BUY 2021. What Car and Auto Express.

Protected

Unprotected

FABRIC PROTECTION

Our technicians coat each fibre of the fabric seats and carpets with a resin based formula which eases the removal of dirt and spills. This prevents staining while preserving the texture and appearance of the material.

Drink spills

Dirt & grime

Mucky pets

LEATHER PROTECTION

For vehicles with a leather interior, Diamondbrite Ceramic Leather Protector formula seals and protects the surface against staining without damaging the leather's supple lustrous feel.

Not all Diamondbrite Ceramic Protection comes with the Leather Protection so check with your dealer to make sure the Leather Protection has been applied to your vehicle.
