IRONMAN 4X4 NITROGAS SUSPENSION

- ✓ NITROGEN GAS PRESSURIZED
- ✓ 35MM TEFLON PISTON
- ✓ 54MM TWIN TUBE BODY
- ✓ FLEXIBLE RUBBER BUSHES
- ✓ EXTENDED TRAVEL

- ✓ NITROGEN WITH FOAMCELL
- ✓ 40MM TEFLON PISTON
- ✓ 60MM BODY
- ✓ TWIN TUBE CONSTRUCTION
- ✓ EXTENDED TRAVEL

IRONMAN4X4 FOAMCELL SUSPENSION

IRONMAN 4X4 FOAMCELL PRO SUSPENSION

- ✓ NITROGEN WITH FOAMCELL
- ✓ 45MM TEFLON PISTON
- ✓ 72MM BODY
- ✓ TWINTUBE CONSTRUCTION
- ✓ EXTENDED TRAVEL

Ironman4x4 design and produce a range of and Leaf springs to facilitate additional loads and lifts

(A) Comfort (B) Performance (C) Constant Load (D) Extra-Constant Load

PART NUMBER SUFFIX S - Standard Height (eg. TOY063S)

Available for selected applications to provide enhanced performance at original vehicle manufacturers ride height.

PART NUMBER SUFFIX A - Comfort (eg. TOY047A)

Suitable for zero to light load applications, higher priority toward comfort with minimal increased ride height.

PART NUMBER SUFFIX B - Performance (eg. TOY047B)

Suitable for use in zero to medium load applications, ideal for moderately accessorised vehicles or occasional load.

PART NUMBER SUFFIX C - Constant Load (eg. TOY047C)

Suitable for vehicles with permanent heavy accessories, higher priority towards load support, provides more control and firmer suspension.

PART NUMBER SUFFIX D - Extra Constant Load (eg. TOY047D)

Suited only to vehicles with permanent heavy accessories combined with heavy additional load.

PART NUMBER SUFFIX E - Extra Heavy Constant Load (eg. TOY047E)

Maximum support for extra heavy loads typically commercial or mining use vehicles.

IRONMAN4X4 COIL & LEAFSPRINGS

Torsion Bars

Higher spring rate to support extra weight from additional vehicle accessories

UP-SET FORGED ENDS - Stronger than machining alone, forging manipulates steel grain for superior strength and durability.

PREMIUM MICRO-ALLOY STEEL - Exceeds OEM steel grade for ultra long life and less sag.

INCREASED BAR DIAMETER - Higher spring rate better supports added accessories and balances front and rear suspension performance.

X-RAY EXAMINED - Each and every Ironman Torsion Bar is X-Ray tested to eliminate risk of breakage due to material flaw.

DIRECTIONAL PRE-SETTING - Torsion Bars are rotationally pre-set in their direction of installation to reduce spring settling. Each bar is marked for left or right fitment.

Steering Damper

Reduce unwanted vibration and feedback through steering system in rough conditions

FOAM CELL TECHNOLOGY - Micro-Cellular closed cell foam insert allows for the horizontal mounting orientation required by a steering damper.

35mm TEFLON BANDED PISTON - Precision shim-stack piston specifically valved by Ironman suspension engineers, banded with Teflon for smooth long life operation.

54mm TWIN TUBE BODY - Increased oil volume for improved cooling and endurance, twin tube construction protects internal components from impact damage.

SUPPLEMENTARY WELDED MOUNTS - Fusion welded and supplementary welded for maximum strength and reliability.

SINGLE PIECE BILLET EYE RINGS AND STEMS - Ultra robust design prevents breakage or bending of mounts.

VEHICLE SPECIFIC VALVING - Every part number is specially valved for each vehicle application, this ensures the steering operation is smooth and unhindered by the effects of rough road driving.

Add a Leaf

Ironman 4x4 Add-a-Leaf is a simple, cost effective addition to boost your existing leaf springs

Eliminates suspension sag and supports additional load

Improves comfort and handling

Increases load carrying capability

Increases ride height

Strut Trim Packers

For use only with Ironman 4x4 struts, available individually to adjust "side to side" or "front to back" vehicle lean due to uneven load placement.

PRECISE RIDE HEIGHT TUNING - Basic steel collar design fits over Ironman 4x4 struts to adjust spring seat height.

PRE-CONFIGURED THICKNESSES - Varied thicknesses allow correct selection according to the amount of adjustment required. Usually provides 1:2 ratio suspension lift on independent suspension vehicles.

Load Plus Helper Spring

Load Plus provides a cost effective way to quickly and easily improve the load carrying characteristics of your vehicle.

Maximize vehicle payload

Improve safety and stability

Reduce tire, brake, and suspension wear

Reduce sway by up to 40%

Reduce brake pitch by up to 20%

Polyurethane Bushes

Provide precise spring location and enables lubrication to increase suspension flex and comfort

INJECTION MOULDED POLYURETHANE - High density injection moulded polyurethane material ensures precise location and a durable bearing surface for your leaf springs, making them very durable in hot temperatures whilst providing a soft comfortable vehicle ride.

GREASABLE - Polyurethane bushes are greasable to aid in longer life and ensure smooth ride and quiet operation.

SPIRAL BORE AND FLANGES - To distribute lubricating grease evenly throughout the bushing surface when combined with greasable shackles and pins.

SPLINES - Allows the bush to conform to irregularities and grip to the eye surface.

Caster Correction Bushes

Available in adjustable or fixed offset designs, used to correct caster angle after raising suspension under 100mm (4")

PRE-CONFIGURED CASTER CORRECTION - Fixed 2 degree offset models suit 50mm (2") lifted suspension.

ADJUSTABLE CASTER CORRECTION - Adjustable offset suit a wide range of lift heights up to 100mm (4")

HIGH DENSITY MATERIALS - Vehicle specific rubber or polyurethane material.

Caster Correction Bushes

Available individually to adjust "side to side" or "front to back" vehicle lean due to uneven load placement

INJECTION MOULDED POLYURETHANE - High density injection moulded polyurethane material ensures precise location and a durable seat with the spring.

PRE-CONFIGURED THICKNESSES - Varied thicknesses allow correct selection according to the amount of lean. Provides 1:1 ratio suspension lift on solid axle vehicles.

SELF LOCATING DESIGN - Raised profile locating flanges prevent packer from becoming dislodged or falling out.

Extended Sway Bar Links

Recalibrates sway bar index after raising suspension.

VEHICLE SPECIFIC BOLT ON DESIGN - Easy fitment, utilises OEM mounting locations.

ADJUSTABLE LENGTH - Adjustable extension where possible depending on vehicle model.

PRACTICAL DESIGN - Strongest construction up-spec materials to avoid bending and breaking. Rubber bushes and aircraft grade spherical bearings used where possible depending on vehicle model.

Greaseable Shackles & Pins

Enables easy re-greasing of polyurethane spring bushes

QUAD-OUTLET GREASABLE - Greasable shackles provide an easy method of re-lubricating polyurethane bushes. Chamfered Quad-Outlet ports distribute grease liberally along the bush surface.

SERVICEABLE - All Ironman shackles and pins feature a serviceable bolt together construction.

ANTI-INVERSION SHACKLE - On selected models, a third pin is positioned on the shackle to protect the spring in the case of inversion.

Adjustable Panhard Rods

Used to correct axle shift after raising suspension. Adjustable as required to re-centralise axle to vehicle

COMPETITION SPEC - 32mm solid rod used throughout.

FINE THREAD ADJUSTMENT - M32 x 2mm thread ensures precision adjustment for greater accuracy.

OEM STYLE RUBBER BUSHES - Maximum flex and durability. Replaceable OEM compatible bushes.

Adjustable Trailing Arms

Used to correct rear axle tilt and location after raising suspension.

COMPETITION SPEC - 32mm solid rod used throughout.

FINE THREAD ON-VEHICLE ADJUSTMENT - M32 x 2mm thread ensures precision adjustment for greater accuracy.

OEM STYLE RUBBER BUSHES - Maximum flex and durability. Replaceable OEM compatible bushes.

ProForge Upper Control Arms

High strength forged alloy control arms to optimise wheel alignment and increase clearance with raised height suspension.

Optimise Wheel Alignment at Raised Ride Height.

More Clearance for Larger Tyres and Increased Lift.

Relocated Ball Joint Position.

High Strength and Durability.

Extended Brake Hoses

Longer brake hose used with suspension lifts over 100mm (4").

DOT SAE J1401 STANDARDS APPROVED CONSTRUCTION - OEM style reinforced rubber hose for safety.

EXTENDED LENGTH - Extended length allows for greater suspension travel.

Airbag Delete Kit

For vehicles with AHC systems. This bolt on kit requires no welding, cutting, or modifying any OEM parts on your vehicle.

Adjustable height range up to an inch

Upper rubber coil spring isolator cones

EDP coated steel threaded body

EDP coated drop forged alloy spring seat with set screws
